DETAILED ACTION

Claims 1-8 have been canceled and claims 30-36 have been added. Therefore, claims 9-36 are currently pending in this application.

Response to Restriction

Applicants' canceled the non-elected claims. Therefore, the restriction requirement is maintained and made final. Applicants reserve the right to pursue the non-elected subject matter in a divisional application.

Previous Rejections

Claim 9 and 10 were rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicants argument filed on May 02, 2007 have been fully considered and were found persuasive in overcoming the 112 1st paragraph rejection as set forth in the previous office action.

Previous Objections

Claims 11-18, were objected to for containing elected and non-elected subject matter. Applicants' Amendment filed on May 02, 2007 has overcome the objections as set for in the previous office Action.

Reasons for Allowance

Claims 9-36 are allowable over the closest prior art of Baba et al, *Solvent Extraction and Development, Japan*, Vol.2, 93-101 (1995). Nothing known in the art anticipates or renders the c processes as described in this application obvious. Therefore, claims 9-36 are allowable.
